

## Expert in Behaviour and Cognition of Aging

The International Clinical Research Center of St. Anne's University Hospital in Brno (FNUSA–ICRC) seeks a highly motivated and qualified individual with expertise in behavioural and cognitive disorders.

**Starting Date: March 2018**

### About FNUSA-ICRC

The International Clinical Research Center of St. Anne's University Hospital in Brno (FNUSA-ICRC), Czech Republic is a new-generation research center focusing on the pathogenesis of diseases including finding new methods, technologies and medicaments for effective prevention, early diagnostics and individualized treatment.

We are a top Central European research center with more than 400 researchers, new technologies and experience in using EU grant support. We focus on research and development in the fields of cancer, immunological, cardiovascular and neurological diseases. Our partners are world-class research centers and universities. For more reference, you can see our website: <http://www.fnusa-icrc.org/en/>

### Job Description:

The successful candidate will:

- Contribute to clinical and translational research in the field of behavioural and cognitive disorders with particular emphasis on aging.
- Collaborate with national and international FNUSA-ICRC partners in studying behavioural and cognitive disorders.

### Desirable Qualifications:

- Doctor in Human Medicine or Clinical Psychology with interest in behavioural and cognitive disorders.
- PhD in behavioural and cognitive disorders a plus.
- Track record in research and publishing research in the field of behavioural and cognitive disorders.
- Fluency in English language (written and oral) is required.
- The applicant should be well-organized, motivated about pursuing a career in biomedical research and with problem-solving attitude. Solid written and verbal communication skills, keen attention to detail are crucial.
- The applicant should be able to work independently, to manage day-to-day operations in a multifunctional scientific team environment.
- The applicant should have a team-driven mentality and closely collaborate with other researchers within FNUSA-ICRC.

### We offer:

- Position at a pre or post-doctoral level in the field of research of behavioural and cognitive disorders.
- Excellent services supporting research, including grant support and project management.
- Participation in national/international congresses.
- FNUSA-ICRC hosts international team members, has a strong publication track record and international collaborations.
- The successful candidate can start immediately.
